

Atom Power Appoints New CEO as Company Enters Next Phase of Growth

CHARLOTTE, N.C. — April 3, 2024 — [Atom Power](#), the pioneer in solid-state digital circuit breaker technology, today announced that Mr. Bharat Vats has been appointed as the company's President & CEO effective immediately.

Vats, an accomplished and visionary leader, brings a wealth of experience to Atom Power. With a proven track record of driving growth and innovation in technology and Artificial Intelligence in utilities, energy, and related industries, Vats is poised to lead Atom Power into a new era of success. Vats held various executive leadership roles at PARC Xerox, General Electric, IBM, and Danaher Corporation.

Vats joins Atom Power as the company ushers in a new phase of growth, spurred on by global demand for infrastructure to support EV adoption and related technologies. Since raising [\\$100M in funding from South Korea's SK group in late 2022](#), Atom Power has expanded significantly, earning a state [grant for company growth](#), securing a [partnership with premier entertainment venue L.A. Live](#), and completing EV charging installations across the United States for companies like [Pepsi Frito-Lay and Duke Energy](#).

Atom Power is leading the way with breakthrough smart solid-state circuit breaker technology and applying it to a market that is set for mass adoption in the years to come," said Vats.

"We are delighted to welcome Vats as our new CEO. His exceptional leadership skills, strategic insights, and deep industry knowledge make him the ideal choice to lead Atom Power. We have great confidence in his ability to steer the company towards even greater achievements in the future," said Ian Huh, the Board of Director of Atom Power on SK Group, the largest shareholder of Atom Power "Vats' enthusiasm for embracing cutting-edge technologies and fostering a culture of innovation will be instrumental in driving Atom Power's continued growth and market leadership. Under his guidance, we are confident that Atom Power will reach new heights and create lasting value for all stakeholders."

Vats' vision for the company centers around managing the connected energy through Atom Power's unified platform of next generation smart solid-state circuit breaker and cloud software. With this clear direction, Atom Power is poised to tackle the challenges of the ever-evolving energy & utilities landscape and capitalize on emerging opportunities.
